PROFILE

SUMMARY

I have gained experience in full-stack website development, website programming tutor, IT support, and anything related to it since 2019. I am adaptable to any situations and have a proven track record of providing solutions, solving various problems, following instructions, fulfilling client requests, and delivering client satisfaction. I am moderately fluent in both English and Indonesian. I am a highly motivated learner who thrives on new challenges and purposeful endeavors. I consistently bring loyalty, integrity, trustworthy, effort, and dedication to achieving goals. I am also used to working on website development with JavaScript and PHP.
