PROFILE

SUMMARY

I started my career in 2021 and I have gained experience in full-stack website development, IT support, office administration, and anything related to these fields. I am adaptable to any situation and have a proven record of providing solutions, solving various problems, following instructions, fulfilling client requests, and delivering client satisfaction. I am moderately fluent in both English and Indonesian Languages. I am an initiative-taking learner who thrives on new challenges and purposeful endeavors. I consistently bring loyalty, dignity, integrity, trustworthiness, effort, and dedication to achieving goals. I used to work on website development with PHP Native.
